By Telegraph to The Times.
SOFIA, May 15.—[By Cable and Associated Press.] Five brigands were hanged in succession at Sofia today.

They were led separately to the sea and were hanged in succession. Each was enveloped in a bag passed over

head and reaching to the waist. The struggles were prolonged several minutes. The mob broke through the cordon surrounding the jail and the gendarmes had great difficulty in keeping them away from the scaffold.

AN AMERICAN SINGER'S SUCCESS.

PARIS, May 15.—Massenet's new opera, *Eclairmonde*, was produced at the Opéra Comique this evening. Miss Sibyl Sanderson, an American, took the leading part and achieved a great success. From the President of the Republic down to the people and Godard, and numerous stars, including Melba and Duviollet, were among the audience. Miss Sanderson's voice is noted for great volume, but for its purity and sweetness. She astonished the audience with the ease with which she took difficult passages, and the critics predicted a brilliant career for her. President Carnot complimented Massenet at the close of the performance.

THE AZUSA.

SOMETHING ABOUT THE WATER SITUATION.

The Irrigators United on a Plan of Development Which Will Harmonize and Benefit the Country—No More Wright-law Elections Wanted.

John Scott, of the Duarte, who is president of the San Gabriel River Water Company, representing the consolidated interests of the Duarte and Azusa irrigators, called at the TIMES office the other day and discussed at some length the water situation at the head of the San Gabriel Valley. He states that all the pulling and hauling at cross purposes, which has kept that section stirred up for years, retarding development and almost leading to bloodshed, will be obviated by the compromise under which the Water Company is operating. The company has already let a contract for the extension of the Covina development tunnel in the San Gabriel valley, 1000 feet further, taking it through a spur of the mountain and under the bed of the stream, where the entire supply will be taken out, thus obtaining a long run over the loam and boulders in the bed of the cañon and consequently preventing much seepage. This contract will cost about \$10,000. Other developing work is in contemplation, chief of which is a cement supply pipe capable of carrying 3000 inches of water under four-inch pressure, delivering it at the mouth of the cañon for distribution to the consumers.

"How much better it would have been," said Mr. Scott, "if, instead of expending \$25,000 on legal fees in the past 10 years, the settlers had got along amicably and put this amount of money into improvements of the system. Then the supply of water would have been doubled, and there would be enough for all and to spare. The whole country would then have shared in the prosperity, and everybody would be better off. It is far better that the water should be economically handled, made to go as far as possible, than that it should be bagged by a few and half of it wasted."

When questioned concerning the recent election under the Wright law, which took place in Azusa, Mr. Scott said: "The compromise arrangements are satisfactory to nine-tenths of the original irrigators, but the other tenth comprises some cantankerous souls who are not happy unless they keep up the turmoil. Then there is something of an irresponsible element who may own no land but each of whom has a vote just the same. The previous election under the Wright law there was a fund of about \$1,500 distributed among these fellows, and they would like nothing better than to have an election with the name conditions every month. This influence may have had something to do with securing the late election. In both elections a majority of the voters declared themselves against organizing the district under the Wright act, and it is hoped that this project to open up the money-and-parrot time again is effectually killed. The supervisors should bear in mind that the settlers have effected a compromise after much tribulation and are now working in comparative harmony and accomplishing good results. To bring about a state of chaos again means a serious injury to our entire section."

The Duarte irrigators are now making arrangements to secure a loan of \$20,000 for the purpose of laying a distributing system in that section. This loan can be secured provided there are no more lawsuits or other entanglements to embarrass the irrigators. I am satisfied that the era of strife and bickering has almost passed, and that the citizens are going to unite for better development, more improvements and general prosperity. All we ask is that the supervisors let us alone, and refuse to call any more of those Wright-law elections."

A BUNG-STARTER.

It Was Used on the Head of a Temperance Man.

Frank Schweitzer was tried before Judge McKinley in Department No. 6 of the Superior Court yesterday, on the charge of assault with intent to murder, and acquitted. He is the foreman of E. J. Baldwin's winery, and got into an altercation last January with a temperance proselyter named A. F. Morton. The latter boarded the lion in his den, and proceeded to lecture a man named Timothy Williams upon his business, trying to get him to quit work. Schweitzer ordered Morton out of the winery, but he refused to go. He was then put out, and became belligerent. Schweitzer hit him over the head with a bung-starter. It doored the temperance man, and he hung between life and death for a long time. The jury was out only a short time, returning a verdict as stated.

Died from a Kick.

Tuesday morning about 10 o'clock while James Lilly, a hostler in Jorgenson's livery-stable at Nos. 726 and 728 South Main street, was attending to his duties he was kicked in the stomach by a horse, knocking him down. The man was badly hurt, but he was helped to his feet by another employee in the stable and walked over to where he was boarding on the opposite side of the street. He managed to stay up until evening, when the pain became so great that he was compelled to go to bed, and he died Sunday morning about 1 o'clock. Coroner Meredith was notified, and the remains were removed to Orr & Sutch's undertaking rooms on Spring street, where an inquest was held, the jury returning a verdict in accordance with the above facts.

Lilly was a man about 33 years of age, a native of England, and a widower. He had only been employed at the livery-stable for about 10 days and was generally liked by his associates.

OUR NEIGHBORS.

WEDDING, CONCERT, CORNER-STONE LAYING AND A BUILDING ROOM.

UNIVERSITY PLACE, May 15.—[Correspondence of THE TIMES.] This morning at 10 o'clock, at the residence of the bride's parents, Miss Emma Sinsabaugh was united in marriage to David Keith of Denver, Colo., the ceremony being performed by the father of the bride, Dr. H. Sinsabaugh, assisted by President M. M. Bovard. About 50 guests were present, among whom were the following: Rev. F. B. Cherrington, D. D., and family of San Fernando, Judge and Mrs. R. M. Whitney, Col. and Mrs. Johnson, Rev. and Mrs. M. C. Warner, President and Mrs. M. M. Bovard, Prof. and Mrs. E. E. Whitted, Prof. and Mrs. G. A. Cox, the Misses Lindsey, Misses F. H. and Miss Howes, Prof. F. H. Suffer, Miss Carter, and many other neighbors and friends. After partaking with the company of a fine collation, Mr. and Mrs. Keith started, via San Francisco, for their home in Denver, where Mr. Keith is engaged in the real-estate business.

All University Place, while congratulating Mr. Keith, regrets the departure of Miss Sinsabaugh, who, in the university, the church and society, has uniformly exhibited such lovely qualities as have attracted to her an unusual number of warm friends. The song recital given by Miss Lindsey on Friday evening was a marked success, both in audience and the artistic quality of the pieces presented. She was assisted by Mr. Sinsabaugh, violin and viola, and Miss Sinsabaugh, piano. Mr. Sinsabaugh's playing was correct and smooth, but lacked vivacity, a quality which further experience will doubtless bring. Miss Lindsey's voice was clear and melodious, especially on the lower and middle notes. Her artistic execution of the first number won well-deserved applause, but she appeared at her best in the last number, "Brahma," which brought out in marked way the fine, sympathetic qualities of her voice.

The ceremony of laying the corner-stone of the new Shaw-avenue church was held last Sunday at 3 o'clock. It was, however, like plum pudding with the plums left out, for the corner-stone nowhere figured in the proceedings. The audience assembled on the floor of the partly-built church, sitting under scaffolding and upon rough planks, and listened to stirring addresses by Dean W. S. Matthews and Rev. A. B. Stevens, D. D., the celebrated historian of Methodism. Afterwards a subscription was taken, under the direction of President M. M. Bovard. The new church building is to be 80x45 feet in size, and is to contain an auditorium room 15x45 feet, with two large galleries. These galleries and the space underneath will be so arranged as to form seven rooms for parlor, classrooms, etc., all of which can be opened into the auditorium room. The church, when completed, will seat 600 people, and is expected to cost \$3000, exclusive of the land.

Something suggestive of a building boom is taking place here. Within a radius of a mile of the university city more than eight houses are now being erected, and two other fine two-story houses will soon be begun, one by Mrs. Wheeler, widow of the late Prof. Wheeler, on Simpson street, opposite Mrs. Toland's, and the other by Mr. Morrill of the Milwaukee Furniture Company, on Vermont avenue, beyond the station. H. Knapp is also building a bakery on Jefferson street, just below Wesley avenue.

Library Directors.

The regular weekly meeting of the Board of Directors of the Public Library was held yesterday morning. Messrs. Dobinson, Hanchette, Davies and the librarian, Miss Kelso, were present.

Messrs. Davies and Hanchette were appointed a committee to secure estimates on blank books required for the library.

President Dobinson and J. Mills Davies were appointed a committee to procure printed blanks for the use of the library.

After adjournment the directors and librarian went to select carpets and linoleum for the new library rooms. The new quarters will be occupied about June 1st.

LETTERS TO THE TIMES.

Mrs. Bigelow and the First-street Viaduct.

LOS ANGELES, May 15.—[To the Editor of THE TIMES.] Mrs. Bigelow has asked me to state the facts as I know them to be.

Mrs. Bigelow's building consists of five stories with a lodging house above. Ex-Mayor Workman, who was called as a witness for the city before the arbitrators (of whom I was one), testified that, owning the property as Mrs. Bigelow did at the time that she built the building, he himself, as a prudent man, considered it a proper building to put there at that time. Now, a depression in rental value of \$50 per month in one store alone would represent damages of at least the amount of the award, and there are five stores in the building referred to, without taking into account the damage to the upper part of the building for lodging house purposes.

It appeared to me, at the time of the making of the award, that the mere cost of making the alterations necessary to adapt the building to other purposes would exceed the amount of the award, and that the building would then bring much less rent than before, and for these reasons, I, as arbitrator, declined to take part in the award.

No fault, so far as I can see, can attach to any one for the failure to file the submission, as it was a mere oversight of all parties. Col. Wells certainly had no control over the papers.

Several real-estate agents testified regarding the value of the property, but not as to damages. And no witness for either party placed the damages as low as \$500; and M. L. Wickes, whose leanings, if any, would be adverse to Mrs. Bigelow, testified that the damage to the rental value of the lower portion alone of Mrs. Bigelow's property would be at least one-third, and his estimate was lower than that of any other witness who testified regarding damages.

So far as Mrs. Bigelow's action in moving to have the award set aside, it is enough to say that the counsel for the city publicly and expressly declared, in his argument before the arbitrators, that unless the award should be satisfactory to the city, the city did not intend to stand by its agreement. If the city went into the matter of arbitration with the intention to keep good faith only in case the award was satisfactory to it, how can Mrs. Bigelow be blamed for refusing to submit to an inadequate award, illegally made? Very respectfully, CHARLES L. BATCHELLER.

The United Brethren Conclude to Remain Unaffiliated—Blaine at a Baltimore Banquet—Other Eastern News.

TOSKANA, May 15.—[By the Associated Press.] A brief dispatch received at headquarters of the Santa Fe Railroad from Carthage, N.M., states that George W. Richards, superintendent of the Carthage mine, was killed this afternoon by two Mexicans, who stole \$7000.

Today Superintendent Richards was making the April payments to miners and had disbursed all but \$7000, when two Mexicans gained entrance to the office and shot and killed the superintendent and secured the money, after which both mounted one horse and rode away.

A pursuing party was organized. A reward has been offered for the capture of the robbers.

Richards had been in the employ of the company as mining engineer and superintendent of mines for several years. He came from Quincy, Ill., and was educated in the University of Illinois.

THE CHAMPION CROOK.

He Would Turn Bad Whisky Into the Genuine Stuff.

CHICAGO, May 15.—[By the Associated Press.] A scheme involving in some respects the great electric sugar fraud was exposed here today. The perpetrator is a smooth-tongued young fellow named John Archibald Comp, whose papers indicate that he has been operating in Kansas City, St. Louis, Cincinnati and other places, as well as in Chicago. He is now missing, and it is said a good many thousands of dollars belonging to various distillers and liquor dealers have disappeared with him.

Comp, it is stated, pretended to possess a compound which would change poor whisky into the finest grade. A gallon sample of the vilest forty-proof, after being medicated, would be placed in a refrigerator, and in ten minutes would be taken out, transformed into the finest Bourbon. If objection was made to the refrigerator, Comp would accompany the doubter to any place desired and then, retiring to a private room, accomplish the feat without the refrigerator. It now turns out, however, that the refrigerator was really, as suspected, a clever device by which a bottle containing good whisky was substituted for the bad.

The trick, when performed elsewhere than at the refrigerator, was done by means of a tin bottle, which was placed in the Comp's clothing. This armor was double, and was in reality a reservoir which, by means of a concealed tube, could be emptied or filled at will. Comp was inveigled into taking a detective into partnership with him, but when his arrest was contemplated he smelt a mouse and fled behind the refrigerator, but carrying off the armor.

BLAINE AT A BANQUET.

The Secretary Pays a Tribute to the President.

BALTIMORE, May 15.—[By the Associated Press.] The members of President Harrison's Cabinet and many other prominent gentlemen from New York and Philadelphia, assembled this afternoon at the residence of Gen. Arthur of the Baltimore American to attend an informal dinner given by that gentleman.

When Secretary Blaine was introduced to the guests he said: "I was not advised that I was to make a speech, nor did I expect to make one. In the presence of so many Democrats I cannot speak of party matters, but I will say that you have in the President a man who will administer this Government in a non-partisan way. Before Democrats and Republicans he will recognize that the highest and most honorable career is to be a good citizen of the United States. This is an age of delusions, an age of enlightenment. The press with its genius and literary ability has done more to enlighten the people than any other power. It has been more successful in making his guests feel at home than Gen. Grant. He is a great Frenchman and a great American, who came to this country with a zeal that made Lafayette's coming an honor to the land. I know I interpret your feelings when I offer to you the name and honor of Gen. Grant."

Several other speeches were made.

SOUND ADVICE.

A Railway's Debt Should Be Scaled to Its Earnings.

PANORAMA (Kan.), May 15.—[By the Associated Press.] The annual meeting of the stockholders of the Missouri, Kansas and Texas Railroad Company was held in this city today. Three hundred and thirty-one thousand six hundred and sixty-two shares of stock were represented. H. K. Enos, chairman of the executive committee, made a report of the doings of the committee during the year, and recommending that as much of the road could not earn more than \$1,300,000 per annum over and above operating expenses, the bondholders and stockholders be made acquainted with that fact with the view of scaling the indebtedness so as to come within or near that limit.

The following named gentlemen were elected directors for the ensuing year: Rudolph K. Martinson, Henry K. Enos, William D. E. Elery Anderson, William Bond, Simon Stern, Jacob Deener, William D. E. Elery, George V. Forrest, Herman R. Baltzer, Maynard C. Sloane, of New York; Harrison Cross, Emporia, Kan.; Benjamin F. McDonald, Fort Scott, Kan.; Lee Clark, Parsons, Kan.; James C. Thompson, Sedalia, Mo.; John Hancock, Austin, Tex.

UNITED BRETHREN.

Women to Be Licensed to Preach—The Seceders.

YORK (Pa.), May 15.—[By the Associated Press.] Bishop Weaver presided over the majority conference of the United Brethren Church today. A resolution licensing women to preach was adopted after a long discussion. A motion was adopted that no minister should be allowed to preach more than three consecutive years at one point without the consent of the conference.

The minority conference was presided over by Bishop Wright. It was agreed that four bishops should be elected, one for the Pacific Coast and three for the East. It was recommended to call a congress of Christian churches in the fall in some large city to urge against secular societies.

At a meeting of the visiting ministers and laymen to the United Brethren General Conference, held in the afternoon, resolutions were adopted expressing hearty approval of the action of the general conference in ratifying the work of the church commission appointed by the general conference, thus bringing into force the revised confession of faith and amended constitution of the church, and protesting against use of the church name by the seceders.

THE CROWN MYSTERY.

CHICAGO, May 15.—Nothing particularly new in the Crown case up to a late hour tonight. Black, this evening, said that when placed on the stand he will testify that he saw Crown on Sunday, the day following the Doctor's alleged abduction. The prisoner declines to give details.

WILLY BISMARCK.

Old King Malleus Probably Playing the Chancellor's Game.

NEW YORK, May 15.—[By the Associated Press.] Editor Oswald Ottendorfer of the Staats Zeitung arrived yesterday, after an absence of five months in Europe. In an interview he said: "I met our German commissioners in Berlin, and they seemed to be confident of carrying their points, because Bismarck was so gracious. They asked for the independence of the islands, and that the people be not interfered with in their internal affairs. The news of the release of King Malleus was received in Berlin while I was there, and it created a favorable impression. I told Commissioner Phelps, however, that he better look sharp lest the Chancellor steal a march on him. It is altogether likely that King Malleus, who was in the hands of German marines for two years, is now a mere tool of Bismarck. The young Emperor Wilhelm is suffering from trouble in his head, which has made him partially deaf, and fears are entertained that it will become serious."

A Bride's Shocking Death.
CHICAGO, May 15.—Mrs. Mary Lambrecht, a bride of but ten days, was run over tonight and killed by one of Yerkes' cable cars. Accidents have been so frequent on the company's lines, and the service is so unsatisfactory, that a mob of fully 1500 people quickly gathered, and made demonstrations toward lynching the grimy, speedy action by the police saved him.

Injured by Dynamite.
ISPERING (Mich.), May 15.—By an explosion of dynamite at Osceola today four Austrian miners were terribly injured. Two may die.

RAILWAY NEWS.

PLAN FOR CONSOLIDATING THE WABASH LINES.

Sound Advice Given to Stockholders of a Western Road—Complaints Against Lines in the Interstate Association.

By Telegram to The Times.
CHICAGO, May 15.—The lines of the Wabash Railway east of the Mississippi River were sold before Judges Gresham and Jackson to Messrs. Ashley and Joy, representing 90 per cent of the bonds and acting in the interest of the Wabash and Wabash and Western purchasing committee for \$15,000,000. The headquarters are at St. Louis.

The amount received secures the first and second mortgages in Ohio and the first on all the rest of the road. Said President Ashley of the Wabash Western: "We will consolidate the Wabash Railway and Wabash Western by August 1st. We will probably sell the complete system, the Wabash Railroad Company. We have issued and sold \$14,000,000 50-year 5 per cent bonds on the consolidated system. Of this we will use \$1,741,000 to pay the first mortgage of the Wabash Western. We will also issue second mortgage bonds of \$14,000,000 on the lines east of the Mississippi, making \$25,000,000 on these lines. There are besides on lines east of the Mississippi \$30,000,000 bond depending on the sale of the road. The new bonds are already at a premium of 1 1/2 per cent, and I think will go between 5 and 10. They will last month money but refused, but compelled us to pay about \$400,000 more than it would otherwise have cost us."

Mr. Dexter said that East Los Angeles is favorably situated for such an exposition and mentioned the converging street-car lines and railroads. A vote of thanks was tendered Chairman Hughes for the able manner in which he had presented the exposition matters.

Mr. Dexter brought up the subject of parks, and stated that Mayor Hiram Ward had expected to be in East Los Angeles Thursday, and would be pleased to meet the citizens and confer with them regarding plans for park improvements, and C. N. Earl, Mr. Embury, W. C. Hughes, J. R. Schuch and R. H. Smith were appointed a committee to confer with the Mayor.

Forty-one persons were elected to membership and the following names were proposed: J. J. Cooper, J. L. Craig, H. K. S. O'Melveny, R. A. Reed, J. Davidson, H. T. McCrabbe, Charles A. Gardner, F. M. Nickell, William Nicol, L. A. Garrett, F. Ormstead and E. Hansen.

Under reports of committees, Mr. Van Duzen presented an exhaustive written report on the Downey avenue bridge question, stating that from all plans and contracts now accessible, the work is being done properly, but that the original plans could not be found.

Ex-Councilman Earl stated that the original plans call for the bridge to continue on a level with the top chord of the truss beyond the right of way of the Utah road, and that no official change had been made.

Mr. Van Duzen stated that the guards to approaches to the Daly-street bridge had been ordered and that the matter of extending Huff street, now Pasadena avenue, was being favorably considered.

Several proposed changes in the constitution were adopted.

Mr. Backman spoke of the lack of express accommodations and wanted the road looked into.

It was stated that \$2500 had been earned by the East Side Wells-Fargo office during the past year and Messrs. Morris, Ling and Schloss were appointed a committee to secure better accommodations if possible. The sum of \$25.50 was received during the evening.

Good Thing for the Burlington.
Mr. Quigley, agent of the Burlington route, has received official notice that his line will make close connection at Council Bluffs with the new fast overland train via Southern Pacific and Union Pacific railways. The Burlington new train will leave Council Bluffs at 9:25 p.m., on arrival of the train from the West, arriving at Chicago at 12 o'clock noon, two hours in advance of any other line.

The Burlington has just placed dining cars on its fast vestibuled train between Denver and Chicago, and thus becomes the pioneer dining-car line west of the Missouri River.

EAST SIDE.

Interesting Session of the Chamber of Commerce.

B. C. Arnold moved to Pasadena yesterday. H. G. Angevine has gone to San José. His father will follow him in about two weeks.

A number of East Side young people will go to Pasadena this evening on the 5:45 train to attend the association meeting for Christian Endeavor workers. A special train will be on hand to bring all Los Angeles people home after the exercises.

The Chamber of Commerce met last evening with about 50 persons present, and President M. D. Johnson in the chair. The report of the association was presented and the matter of a site for the Industrial Exposition was taken up. Twelve propositions were offered, and among them those that have been previously outlined.

W. E. Hughes, chairman of the Industrial Exposition directors, stated the wants of the board and spoke of the desirability of such an exposition and instanced the value of exhibits, of manufactures, products, resources, etc.

He referred to many cities in the East where such exhibitions had been carried on successfully, and spoke of the necessity of a central location that should be accessible by street-car lines, etc. He also stated that thus far East Los Angeles had taken more definite steps toward securing a site for the exposition than any other part of the city.

Mr. Backman gave an outline of an interview with Mr. Robinson, of the cable company, who agreed to carry all of the people who may wish to visit the exposition wherever it should be located, and run cars every five minutes.

Mr. Dexter said that East Los Angeles is favorably situated for such an exposition and mentioned the converging street-car lines and railroads. A vote of thanks was tendered Chairman Hughes for the able manner in which he had presented the exposition matters.

Mr. Dexter brought up the subject of parks, and stated that Mayor Hiram Ward had expected to be in East Los Angeles Thursday, and would be pleased to meet the citizens and confer with them regarding plans for park improvements, and C. THE CITY IN BRIEF.

The barbers of this city are trying to form a protective association.

C. C. Gibbons of J. M. Hule & Co. was yesterday presented by his wife with a nice nine-pound boy.

There was a ball given in the Armistage building, at the corner of Downey avenue and Alta street, last evening.

The French Benevolent Society will hold its annual picnic at the Arroyo Seco grounds on Sunday, the 20th inst.

James Hood pleaded not guilty yesterday to the charge against him in the Superior Court. His case was placed on the trial calendar.

Prof. Weisendanger had the misfortune to twist a wheel off his carriage in driving across the street-car track in front of the Nadeau yesterday.

Twenty of the most fierce-looking and best-dressed policemen of the force stood in line in front of the Times office yesterday morning and had their pictures taken.

It seems that in the suit of H. L. Simon et al. vs. Chas. Dillman and Jacob Will, for \$717.50 on a promissory note, Will had paid his half of the note and was simply making a party to the suit on legal grounds.

It is announced that the Southern California Athletic Club has offered a \$750 purse to Billy Manning of this city and Mulholland, to take place in the club's grounds.

John F. Myers and James Gray pleaded guilty before Judge Cheney yesterday to a burglary committed in Pasadena, and Thursday was set by the Court for fixing the degree of burglary under which they will be sentenced.

C. E. Whelpley brought some fine ore in yesterday from the Julian mine. The mine has been bonded, and from all accounts it is one of the richest in Southern California. The rock averages \$90 per ton, and Mr. Whelpley thinks he will soon make a fortune.

An incorrect impression relative to the projected 'tunnel' street tunnel was given in the headlines of the Council proceedings published Tuesday. The tunnel project was not defeated, but the negative vote given was on some side issue on a ruling of the Chair.

Chief Strohm of the Fire Department wrote a courteous letter to the Kern-Hoff-Currier Company yesterday, acknowledging the receipt of \$100 donated to the Firemen's Relief Fund as a tribute of services rendered in extinguishing the recent fire in the company's mill.

Charles Johnson was sentenced to San Quentin for one year yesterday by Judge Cheney. Johnson committed petit larceny once too often. He had no sooner been let out of the County Jail for stealing some carpenter tools, when he stole some more tools. The second offense made his case a felony.

A row took place at Garabatus a short time ago between R. Talamantes and wife, Francisco Cota and wife and L. Tuoteema. He had them arrested for disturbing the peace, charging that they entered his house and took possession of it. Yesterday Justice King, acting for Justice Savage, examined into the case and dismissed the charge.

Marriage licenses were issued yesterday as follows: Clayton G. Atkinson, aged 30, of San Gabriel, and L. K. Steinbauer, aged 23, of Lincoln Park; Roland L. Dozier, aged 22, and Elizabeth Sturgess, aged 25, city; Dennis Kearney, aged 33, and Julia Fallon, aged 25, city; Charles H. German, aged 23, of Lakewood, and Katharine Mooney, aged 27, of Pasadena.

The Women's Foreign Missionary Society of the M. E. Church is holding a very interesting meeting for the Los Angeles district. The address by Dr. Chennington of San Fernando last evening was of great merit. The subject was "History of Woman's Work in Heathen Lands." The last session of this meeting will begin at 9 o'clock today at Fort-street M. E. Church.

The Lotus Social Club was organized last evening for the purpose of social amusement. It is the intention to furnish handsome clubrooms, where all the leading papers may be found. The officers elected for the first term are: Charles H. Platt, president; J. Shea, vice-president; H. Carmichael, secretary; Executive Committee, John T. Reile, J. C. Stevenson, Alex. Carsten, James Hammill, Alex. Palmer, John House.

The old civil suit of *Le Progres* against Frank Oakley and others interested with him in the leasing of that paper, came up in Justice Lockwood's court yesterday. The case was tried and the plaintiffs awarded judgment for \$248.85. Mr. Oakley, who in addition to his versatile linguistic accomplishments, is also an able lawyer, was himself adroitly, but the court was too much for him. The suit was brought to secure payment of certain unpaid bills of the paper.

ATTENTION!

Cheap Land - Good Land.

Dr. E. T. Barber of Lancaster, Antelope

Valley, California, Cal., offers 33,000

acres of land for sale, in tracts of 20 acres and

upward, at \$5 to \$6 per acre, with liberal terms

and title guaranteed.

This valley has raised the premium wheat

of the world; sugar beets at the rate of 20

tons to the acre; barley hay, three tons; eight

crops of alfalfa in one year; parsnips seven

inches in diameter, and is competent to com-

pete with Spain for raisins, and France for

chambragne.

All this land offered can be covered with

mountain water, and has good surface and

irrigation.

The railroad facilities are good; the Southern

Pacific Railroad now crosses it and three

other great railroads are expected to do so in

the near future.

Climate good—no cyclones, blizzards, fogs

or malaria.
